- **Database language:** SQL
- **Software:** Microsoft Office Suite

---

## SOFT SKILLS

- Flexible in any situation and environment.
- Highly adaptable to changing conditions.
- Demonstrates resilience in facing challenges.

---

## ACADEMIC PROJECTS

- **QR code generator using python** [Aug-2022]  
This Python-based QR Code Generator application uses 'tkinter' for the GUI and 'pyqrcode' for generating QR codes. Users can input a URL and generate its QR code with a button click, which is then displayed in the same window. This tool offers a simple and efficient way to create and view QR codes for easy sharing and scanning.
- **Startup Success Prediction** [Jun-2024]  
The Startup Success Prediction project utilizes Python and a 'Decision Tree Classifier' to predict the likelihood of startup success based on features like funding, market conditions, etc. By analyzing historical data, the model identifies key patterns that differentiate successful startups from unsuccessful ones.

---
